General Syllabus

CS 4913 Information Technology Internship

Credit Hours: 3

Independent Study Hours: 3

Laboratory Hours: 0

Prerequisite: Information technology major with junior standing, and consent of department head.

Effective Catalog: 2018-2019

I. Course Information

A. Catalog Description

An intensive field experience that draws from the areas of exposure during the baccalaureate degree program in information technology. The internship program includes both cooperative, educational experiences and extended job shadowing. May be repeated for a total of six hours.

II. Student Learning Outcomes

A. Subject Matter

Upon successful completion of this course, the student will be able to:

1. Learn through experience the role of information technology in a professional mentoring program.
2. Evaluate and obtain information on information technology career opportunities.
3. Expand upon the theory and concepts taught in information technology courses.
4. Collaborate and work with professionals to identify possible industry skills sets needing enhancement that will enrich future course work.

B. University Learning Outcomes

Analytical Skills

Critical Thinking Skills: Students will identify a concept or problem to dissect or isolate its components, to organize information for decision making, to establish criteria for evaluation, and to draw appropriate conclusions. Students will analyze the effectiveness of technology in

solving problems.

Communication Skills (written and oral)

Students will read and comprehend information, express ideas effectively in written and spoken form, and listen attentively.

III. Major Course Topics

Major course topics will vary based on the selected subject.
