STUDENT HEALTH CARE PROVIDER STATEMENT/MEDICAL RELEASE

Prior to entrance into a health sciences program, a medical release must be completed by your health care provider. Note: If at any time during the program your health status changes, you must have your health care provider complete a new medical release form. This form, with the student's and health care provider's signature, is required prior to return to clinical following absence due to health problems or changes in health status. The faculty reserves the right to request the student to submit a new health care provider statement/medical release in the event the student demonstrates evidence of clinical performance affected by physical, emotional, or mental limitations.

All College of Health, Education, and Human Sciences (CHEHS) students must be physically, emotionally, and academically able to safely demonstrate completion of all required learning activities. Learning activities include successful completion of course, clinical, and theory objectives in order to successfully complete the CHEHS curriculum. All students must submit the health care provider statement/medical release that includes a medical history questionnaire and a physical ability requirements. CHEHS students will be treated respectfully regardless of race, color, national origin, gender, age, religion, or disability. In turn, CHEHS students will treat their clients respectfully regardless of race, color, national origin, gender, age, religion, or disability. University of Arkansas – Fort Smith (UAFS) provides reasonable accommodation and services to otherwise qualified students who have physical, emotional, and/or learning disabilities unless making the accommodation poses an undue hardship on the University or jeopardizes client safety.

CHEHS students will be in clinical courses requiring the safe application of both gross and fine motor skills as well as critical thinking skills. All of these skills are an inherent element of clinical practice. Usual and required activities routinely conducted by students include care for clients that may be ambulatory or comatose and involves all age ranges from premature infants to gerontology clients. Required abilities: walking, standing for up to 12 hours, bending, reaching, turning, listening, observation, and moderate to heavy lifting (at least 75 pounds). There always exists potential exposure to communicable diseases and other pathogens.

STUDENT AFFIRMATION: I understand the student academic role and clinical performance requirements as noted on the physical abilities requirement form and agree that I have the primary responsibility of my own health status. I agree that I will not knowingly place myself, clients, or others in unsafe situations based upon my physical, mental, or emotional limitations. I have completed and signed the physical abilities requirements form and medical questionnaire. I authorize my health care provider to release the information requested below concerning my health status to CHEHS. A student not being truthful or falsifying the health policy documents will be dismissed from the CHEHS Program.
