Introduction

On November 8, 1990, President Bush signed the “Student Right to Know and Campus Security Act of 1990.” The Act applies to every institution of higher education that receives federal financial aid. Title II of the Act was called the “Campus Crime Awareness and Campus Security Act of 1990.” It requires institutions of higher education to distribute to all current students and employees, and applicants for enrollment or employment, two types of information: (1) Descriptions of policies related to campus security, and (2) Statistics concerning specific types of crimes. Amendments enacted in 1998 renamed Title II, and it is now known as the “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.” The amendments require the disclosure of crimes that are reported to police and campus officials other than police, along with a breakdown of locations of criminal activity to be specified as on-campus, non-campus, residence hall or public property.

University of Arkansas - Fort Smith Police Department Law Enforcement Authority

Arkansas State Statute 25-17-304 confers upon the Chancellor of a state institution of higher education the right to create a University agency with the same powers as any municipal, county, or state police agency in Arkansas. The University of Arkansas - Fort Smith (UAFS) Police Department is made up of sworn, state-certified law enforcement officers. The UA Fort Smith Police Department continually works with municipal, county, state, and federal law enforcement agencies within the state of Arkansas, and occasionally with others outside the state as well. The UAFS Police Department is a prevention/service-oriented agency. Service to the campus community is top priority.

The University is located in the City of Fort Smith, Arkansas, and Fort Smith Police Department Police Officers travel around and through the campus each day. In addition, Fort Smith Police Department (FSPD) police officers may assist officers from the UAFS Police Department when their assistance is requested. During their travels on campus and during those times when their assistance is requested, Fort Smith Police Department Police Officers have full authority to make arrests for violations of law. UAFS Police Department’s Jurisdiction goes as follows:

- Kinkead Avenue from 49th Street to 48th Street
- 48th Street from Kinkead Avenue to Grand Avenue
- Grand Avenue from 48th Street to 50th Street
- 50th Street at Grand Avenue north to the north boundary of the parking lot adjacent to Grand Avenue
- The north boundary of the parking lot from 50th Street to Waldron Road
- Waldron Road from Grand Avenue parking lot north boundary (extended) to north boundary of the Church of Christ parking lot
- East boundary of Church of Christ parking lot and 56th Street to Kinkead Avenue
- Kinkead Avenue from 56th Street to the creek at east boundary of Crowder Field
- The creek from Kinkead Avenue to the south boundary of Crowder Field parking lot
- Crowder Field parking lot south boundary to Waldron Road
- Waldron Road from Stubblefield Center parking lot southern entrance to Park Avenue
- Park Avenue from Waldron Road to 49th Street
- 49th Street from Park Avenue to Kinkead Avenue

Mutual Relations with Other Law Enforcement Agencies

The UAFS Police Department enjoys an excellent working relationship with the City of Fort Smith Police Department, the Sebastian County Sheriff Department, and the Arkansas State Police. The exercise of that authority is described in a “memorandum of understanding” between UAFS Police Department and FSPD that outlines which law enforcement agency will have jurisdiction over which type of offenses. Personnel and resources are provided by these law enforcement agencies whenever an incident occurs that exceeds the capabilities of the UAFS Police Department.

Reporting Crime and Other Emergencies on Campus

The UA Fort Smith Police Department can be contacted by telephone, emergency and information phones, in person and by email. By telephone, University Police may be reached by dialing (479) 788-7140. Outside on university grounds, one may use the emergency phones located on the east side of the Fitness Center, Lot E1, in the middle of the lot, Lot A behind the Business Center, Lot F1 South; South end of the Lot, Lot F1 North; close to the Kinkead Annex Building and North of the Vines Building near the pedestrian tunnel. Elevators in campus buildings also contain emergency phones, which also provide a direct connection to the University Police Department. University Police officers in vehicles, on foot, or on bicycles are eager to be of assistance and may be contacted directly. E-mails may be sent directly to the UAFS Police Department at upd@uafortsmith.edu. University Police officers are in radio contact with the Fort Smith Police Department. For emergencies involving the need of immediate ambulance, fire department or armed law enforcement response, one should dial 911 immediately and then notify University Police as described above. The University Police Department will respond as quickly as possible to any request for assistance. Response time is based on current activity and the severity of the call. Crimes in progress, traffic accidents and medical assists have a higher priority than other types of calls. The crime also could be reported to one of the following: Student Affairs Office, director of counseling, or to a faculty or staff member who the student is comfortable talking to about the crime. Members of the community are reminded it is important to report incidents promptly so an investigation can be conducted promptly and evidence preserved.

It cannot be stated enough how important it is to promptly and accurately report crime, no matter where it occurs. If a crime is not promptly reported, evidence can be lost and/or a suspect could get away. If a crime is not accurately reported, leads could be missed and an investigation could head the wrong direction. If one witnesses a crime or emergency, it must be promptly reported to the University Police Department and questions should be answered as accurately as possible. The investigation can only be as good as the information received.

If one sees or receives knowledge of criminal activity or other emergencies, or if one is the victim of such, they are encouraged to contact the University Police Department or any campus official.

All victims are encouraged to report crimes and emergencies to the UAFS Police Department. UAFS police officers are primary responders to any emergency or criminal situation on campus. Direct radio and telephone communications with local police, fire, and emergency medical services ensures that police officers can initiate and direct necessary emergency responders to any campus area. In an emergency situation, dialing 911 from any UAFS campus telephone will contact the Fort Smith Police Department Communications Center. A trained dispatcher will direct the appropriate response to emergency situations.

Monitoring Crime Off-Campus

UAFS PD works very close with Fort Smith PD in reference to crimes that occur off-campus of student organizations that are recognized by the institution; Depending on the location of the incident, the city police or our agency will respond and make proper documentation of the incident for Annual Security Report purposes.

How to report a crime

To report a crime, call the UAFS Police Department at (479) 788-7140 (or simply dial 7140 from a campus phone). Stay on the line so all necessary information can be obtained. An officer will be dispatched quickly. Or, visit the office located at 425 North 51st Street (“51st Annex”). The UAFS Police Department is open 24 hours every day. To report an emergency to the Fort Smith Police Department, call 911 from any pay phone or off-campus phone. One should report any criminal activity or incidents to Fort Smith Police Department or to University Police.

Voluntary Confidential Reporting

Like any other community of 10,000 people, UAFS experiences accidents, injuries, crimes, and other emergencies. To report voluntary incidents, potential criminal actions, or suspicious incidents, UAFS faculty, staff, students, and visitors should notify the UAFS Police Department at (479) 788-7140. The University has emergency two-way (blue light phones) throughout campus for use during emergencies. By pressing the red button on the stations, users can communicate directly with the UAFS Police Communications Center. To report an incident of a confidential nature, an individual should contact a Campus Security Authority.

Stay Informed

The UAFS Police Department uses a variety of methods to keep the campus informed about incidents occurring on and near campus. Members of the campus community can stay informed about criminal incidents at UAFS by reading the Daily Crime Logs or Crime Alerts. Crime Alerts are distributed to members of the campus community as part of an ongoing effort to keep the community informed and to raise awareness of significant unsolved crimes that occur on or near the campus. Alerts are distributed by campus mail and postings on public bulletin boards. The UAFS Police Department maintains a Daily Crime and Fire Log in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The crime and fire log are available in two formats. Persons may view a copy at our headquarters located at 425 N. 51st Annex during normal business hours.

Note: Any incidents that may have been reported only to pastoral and professional counselors of the Institution are generally protected by privacy rights of the client or patient and are not included in any of the following statistics, nor for any timely warning notifications to the campus.

Campus and Community Notification of Criminal Activity

If there are crimes occurring on the UA Fort Smith campus that will continue to endanger or affect the campus community, Public Safety Bulletins will be published and posted on the UA Fort Smith LionsLink. The bulletins will allow members of the campus community to

know what is currently happening in order to better protect them. Students and employees can also subscribe to Lions Alert, a text messaging and e-mail subscription service for notifying the UA Fort Smith community of emergency situations and campus closing announcements free of charge.

Information about the department, services provided, and related resources concerning safety and security can be obtained by contacting a University police officer, or e-mail the University Police Department with questions or information at upd@uafortsmith.edu.

Daily Crime Log

The University Police Department maintains a log of all alleged crimes and incidents reported to the University Police Department that is available for viewing, during regular business hours, upon request at the UA Fort Smith Police Department located at 425 North 51st Street in the 51st Annex building.

Timely Warning Notices

Campus Safety Advisories:

The UAFS Police Department distributes Campus Safety Advisories in various ways dependent upon the circumstances. Once UAFS determines that an advisory will be issued, the Director of Health and Safety and the Chief of Police are responsible for ensuring that alerts are dispatched to the UAFS campus community utilizing the most feasible method(s) possible. Typically, e-mail and/or text notices will be sent. Campus Alerts by cell phones via text messages and e-mails are available. The UAFS Police Department may also post advisories on bulletin boards throughout buildings, on the radio and on the university cable channel. In the event a serious crime occurs, the suspect remains at large and there is a potential threat to the campus community, specific messages called Timely Warning Advisories will be published.

Safety advisories are released for natural or manmade disasters, which could affect any significant segment of the campus community.

Emergency Preparedness

UAFS has long recognized the need to be prepared for critical incidents. Under the guidance of the University's Emergency Response Team, the University is doing all it can to prepare for, prevent, respond to, and recover from emergency situations. In conjunction with local first responders, the University is well-prepared to respond to a full range of critical incidents.

UAFS operates under the "Incident Command System" – a system utilized by FEMA and many other emergency response organizations. Under this system, a single Incident Commander directs all UAFS resources. Although the UAFS Incident Commander may consult other individuals, it is imperative that all faculty and staff follow the decisions made by the Incident Commander.

In case of any type of emergency, individuals making the discovery should move to a safe location and then contact University Police at (479) 788-7140. Individuals making the discovery may also contact 911 using a cell phone, 911 using a campus phone, pull the fire

alarm or take other appropriate emergency actions. Initial civilian responders are asked to not intervene in any crime or dangerous event.

The University police officer should follow standard operating procedures while contacting additional civil authorities (FSPD, Fire, etc.) as necessary. If the emergency warrants, the officer should also communicate immediately with the Incident Commander. The Incident Commander will assess the situation and direct University Police to contact and summon the necessary UAFS officials and other resources required to contain and control the emergency. Also, emergency procedures information, such as Rapid Response Information, Emergency Action Plan, and Emergency Maps are listed on the University's webpage (uafs.edu/emergency).

Campus Community Emergency Notification

It is the policy of the University of Arkansas - Fort Smith to issue Emergency Notification Alerts about immediate emergencies on and around the campus. When a report of a potential emergency or dangerous situation occurs, appropriate University personnel will respond in order to assess the situation. If it is determined that an emergency or other dangerous situation involving an immediate threat to the health or safety of students or others on campus exists, immediate notification of the emergency or dangerous situation will be made to the campus community.

Usually, such notification will be made by using the University's Lions Alert notification system. Students, faculty and staff of UAFS are automatically enrolled in the emergency notification system. Students can select how they receive the messages by logging into their LionsLink account. Faculty and staff members can change their alert settings by logging into their LionsLink account.

Notification can also be accomplished using a variety of other messaging methods that include text, telephone, email, computer pop-up windows on campus networked computers and public address systems. In residence halls, Housing staff members may share information face to face with residents. University personnel authorized to issue such notifications will use their discretion to determine the specific method of notification.

Upon confirmation of an emergency or dangerous situation, the chief of the UAFS Police Department and/or designee, director of health and safety and/or designee, and the vice chancellor of finance and administration and/or designee are responsible for consulting on a case-by-case basis when information in the form of an alert is disseminated. The notification will be made without delay. University departments authorized to initiate and carry out emergency notifications include the UAFS Police Department and the University's Office of Health and Safety. Notification will only be withheld if in the professional judgment of responsible authorities, doing so would compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

If the emergency information needs to be disseminated outside of the campus community, this will be accomplished utilizing the UAFS website, telephone information line, and by communicating with local news agencies. Campus evacuation and storm shelter information may be found at uafs.edu/emergency/emergency-maps. Evacuation route maps are posted in hallways throughout all campus buildings.

Fire drills are scheduled annually to test the evacuation procedures for residence halls on the university campus. A test of the Lions Alert notification system is conducted at least once per

calendar year. These tests and drills are announced through the University's web/e-mail or through a specific department.

Campus Facilities Security and Access

UAFS police officers normally unlock the main entrances to buildings at the start of each business day. Security considerations in the maintenance of campus facilities

The University is committed to campus safety and security. Exterior lighting and landscape control is a critical part of that commitment. Representatives from various departments continually conduct security surveys to ensure campus lighting is adequate and that the landscape is appropriately controlled. Department members conduct routine checks of lighting on campus during regularly assigned patrol duties. If lights are out or dim, officers will initiate an immediate work order, which is acted upon by a representative of the appropriate maintenance office, usually within 24 hours or the next business day. We encourage community members to report any deficiency in lighting to Facilities at 788-7170.

Any community member who has a concern about physical security should contact the University Police Department at 788-7141.

Representatives from the police department and plant operations work together to identify inoperative locking mechanisms on a continual basis. We encourage community members to promptly report any locking mechanism deficiency to the UAFS Police Department at 788-7140. Maintenance staff are available to respond to calls for service regarding unsafe

facility conditions or for personal safety and property protection. These conditions may also include unsafe steps or handrails, unsafe roadways on campus, and unsecured equipment.

Programs and resources are available to members of the University community concerning sexual harassment and sexual assault. Programs can be arranged through the Director/Chief of the University Police Department, the Student Affairs Office, and/or Housing and Residential Life.

Procedure to Follow if Sexual Harassment or Sexual Assault Occurs

Who to Contact: If someone is the victim of sexual harassment or sexual assault, the quickest possible way to report the incident is to contact the University Police Department or the Fort Smith Police Department. If the incident occurred off campus, the UA Fort Smith Police Department will assist the victim in notifying the proper law enforcement agency. A victim may also report the incident to any Campus Security Authority. A victim of sexual assault may go directly to a hospital and decide at the hospital what other agencies or resources to contact.

Preservation of Evidence: It is important a victim of sexual assault does not shower, douche, brush their teeth, or use the restroom, and that they do not wash their clothes or any bedding on which the incident may have occurred. If they do so, important evidence can be lost. Time is an important factor for the preservation of evidence so University Police and/or the Fort Smith Police Department should be contacted immediately.

Assistance in Contacting Law Enforcement: Even if the victim reports the incident to an agency that is not law enforcement, they can still report the incident, even at a later time, to the University Police Department or the law enforcement agency that has jurisdiction if the incident took place off campus. Any official on campus is able to assist a victim in contacting the proper law enforcement agency.

The victim must request a University administrative judicial hearing. These proceedings are totally separate from any criminal action that may be taken. The victim has the right to change academic and living arrangements, if requested and it is reasonably available.

Both the victim and the accused have the option of having others present during administrative judicial hearings. These individuals are for a support capacity only and may not represent the victim or accused. Both the victim and the accused will be notified of the outcome of any administrative hearing. In some instances, it may be appropriate for University faculty and staff members to use the University's formal grievance procedures to address grievances related to allegations of sexual harassment or sexual assault. The faculty and staff grievance procedure is described in the University Employee Handbook.

Upon request, the institution will disclose the results of any disciplinary proceeding conducted by the institution against a student who is the alleged perpetrator of any crime of violence or non-forcible sex offense to the alleged victim, or next of kin if the victim is deceased.

Campus Disciplinary Sanctions

Sanctions imposed through the University Administrative Judicial System can range from no action up to expulsion from school.

Campus Sex Crimes Prevention Act

The Federal Campus Sex Crimes Prevention Act, (section 1601 of Public Law 106-386) enacted on October 28, 2000, went into effect October 28, 2002. It is a law that provides for the tracking of convicted, registered sex offenders enrolled as students at institutions of higher education, or those working or volunteering on campus. The law requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a state concerning registered sex offenders may be obtained. It also requires sex offenders already registered in a state to provide notice to the appropriate state agency, as required under state law, of each institution of higher education in that state at which the person is employed, carries on a vocation, or is a student. The Clery Act, as amended by the Campus Sex Crimes Prevention Act, requires an educational institution to state the location of where information concerning registered sex offenders is maintained. A list of current sex offenders pertinent to the University of Arkansas – Fort Smith campus is developed and maintained in the University Provost Office. In accordance with Arkansas law, relevant and necessary information will be disclosed when the information is necessary for public protection. Inquiries regarding registered sex offenders may be directed to the University Public Information Officer.

Policy on Preparing the Annual Disclosure of Crime Statistics

The Clery Report is compiled by University of Arkansas-Fort Smith Police Department. Crime and arrest statistics for the report are compiled from police reports from the files of the University of Arkansas-Fort Smith Police Department, Fort Smith Police Department, Sebastian County Sheriff's Office and law enforcement agencies in areas where agricultural substations are located. Judicial referral statistics are provided by the University Of Arkansas-Fort Smith Office of Student Affairs. We cast a wide net for input from other campus officials. Inquiries are made to the top university administrators (chancellor and vice chancellors), all deans, directors and department heads requesting information, if a crime was reported to anyone in their area and not reported to the police.

Policy on Preparing the Annual Fire Safety Report

The Fire Safety Report is compiled by University of Arkansas-Fort Smith Police Department. Information is gathered from UAFS Police Department files, from University Housing, Greek Life and the University's facilities management.

Missing Student Policy

A missing student is defined as any currently registered student at the University Arkansas – Fort Smith who has not been seen by friends, family members or associates for a reasonable length of time, and whose whereabouts have been questioned and brought to the attention of a member of the University community. Missing students should be reported to the UAFS Police Department immediately.

The Office of Housing and Residential Life will initiate an investigation when notified by University Police that a student, who resides in a University apartment/residence hall, is missing, with no reasonable explanation for his/her absence. In the event of a missing student residing on campus, the director of housing and/ or vice chancellor for student affairs

will notify the contact person (if 18 or older) or parents/family members (under 18) regarding the situation. The missing student's contact person information is registered and confidential.

During this process, the student's contact information will be registered confidentially, and that this information will be accessible only to authorized campus officials and would only be disclosed to law enforcement personnel in furtherance of a missing person's investigation.

If a student is under the age of 18 years of age and not emancipated, the institution will notify a custodial parent or guardian within 24 hours of the determination the student is missing, in addition to notifying any additional contact person designated by the student.

In addition to notification to University police, the institution will notify the local law enforcement agency within 24 hours of the determination the student is missing unless the local law enforcement agency was the agency that made the determination the student was missing.

In the event the student does not reside in a University residence hall, the appropriate municipal local police authorities will be notified by University Police, and an investigation will be initiated.

Hate Crime Reporting –None reported in 2011.

Fire Safety Equipment

All suites/apartments are equipped with smoke detectors. Each floor in each residence hall is equipped with fire extinguishers. Fire alarm pull stations are located on each corridor of each hall. Tampering with fire safety equipment or setting off a false alarm is against the law. It also will make the system ineffective and endanger the lives of other residents. Any

person, who sets off a false alarm, interferes with the operation of the alarm system, damages or removes any part of the alarm system, fire extinguishers, smoke detectors, or exit signs are subject to severe disciplinary action, including dismissal from the residence halls, possible suspension from the University, and/or criminal prosecution. If a smoke detector is detached from the wall for any reason, it is the responsibility of the resident to report it immediately. If not reported, all residents will be held responsible for tampering with fire safety equipment and will be disciplined and/or fined.

Fire Evacuation Procedures

In the event of a fire, all residence hall buildings will be evacuated to protect the health and safety of the residents, guests and visitors. When an alarm is sounded, one must assume there is an emergency and adhere to the following steps:

1. REMAIN CALM.
2. Evacuate by the nearest safety exit stairway.
3. DO NOT USE ELEVATORS. Elevators will either automatically return to the first floor or the UAFS Police will return them to the first floor.
4. After departing the residence building, proceed directly to the designated assembly point away from the building. Do not leave the assembly area until told to do so by a responsible official. Suitable emergency shelter will be provided as soon as possible.
5. Return to the hall ONLY when told by Fire Department Officials, UAFS Police, or a Student Housing and Residential Life staff member.

Fire safety regulations

It is essential that residents observe and follow all fire safety regulations. Electrical appliances with exposed heating elements are prohibited.

All appliances must be UL approved. No open flames (candles, incense, kerosene lamps, etc.) or any incendiary devices are permitted in the residence halls, rooms/suites/apartments. Smoking is not permitted in the residence halls, including balconies, vestibules, etc

Reporting a fire

To report a fire, students and employees should contact the: The University Police Department, Fire Department, or a Student Housing and Residential Life Staff member.

Communicating a False Alarm

It is a violation of state law and university policy to deliberately sound a false alarm and/or to tamper with fire safety equipment. Violators may face prosecution in the local criminal court system and the university judicial system. Such behavior will not be taken lightly. In the most severe cases, it does endanger lives and at a minimum it disrupts the educational process.

Flammable Materials, Explosives, Fireworks and Open Flames

Dangerous items such as flammable materials, explosives and fireworks are not permitted on the university campus or in university buildings except in approved and supervised programs such as the ROTC Departments and certain academic programs. Substances which

have the potential to cause fires or explosions are not permitted inside the residence halls. No open flames are allowed. Smoking is not allowed in any residence hall. Halogen lamps are not allowed. Electrical appliances that have an exposed heating element are not allowed in residence halls. Fires in residence halls are known to have resulted from burning candles and/or incense. These items are not allowed in student rooms and/or public areas of the residence halls.

Fire Drills

The purpose of the fire drill is to acquaint residents with a rapid and orderly means of exit during an emergency. Each housing facility conducts no fewer than two fire drills annually. All persons in the building are required to participate in the fire drills and evacuate the building through the exit routes.

Fire Safety Education and Training Programs

Fire safety education programs for all students living in on-campus student housing and all employees that have any association with on-campus student housing are held at the beginning of each semester by Housing Office. These programs are designed to: familiarize everyone with the fire safety system in each housing facility, train everyone on the procedures to be followed in case there is a fire and distribute information on the university's fire safety policies.

Fire Log

The UAFS Police Department maintains a Fire Log that records, by the date the incident that was reported, all fires that occur in an on campus housing facility. The Fire Log is available for public inspection at the department's headquarters. The Fire log includes the nature, date, time, and general location of each fire reported to the department. The department posts fire incidents in the Fire Log within two business days of receiving a report of a fire and reserves the right to exclude reports from the log in certain circumstances.
